Cod. 2000
Bogotá, D.C.

REF: Your request with subject “Enquiry on Market Surveillance Requirements for Wireless Products_ Colombia” with number 2025825627.

The Communications Regulation Commission (CRC) has received your inquiry regarding “whether there are any market surveillance requirements conducted by Regulatory Authority for wireless radio products in Colombia”.

Specifically, you need to know if:

- « 1. Any periodic testing, market audit, or sample submission is required after certification.
- 2. There are any annual renewal or compliance maintenance procedures.
- 3. The local regulations include any requirements regarding certification regulations and SRD regulations?»

1. Scope of the present communication

Before responding to your request, it is important to clarify that this Commission, when issuing its opinions, does so in accordance with the provisions of article 28 of Law 1755 of 2015. Consequently, the scope of the statements provided herein will carry the same legal effect as those granted to opinions rendered by administrative authorities. It should be noted that, since these opinions cannot analyze specific and concrete situations, they must refer in a general and abstract manner to the matters addressed in your request.

2. Response to your inquiry

Regarding your inquiry, we kindly inform you that it has been addressed to the Communications Regulation Commission (CRC), the entity responsible for promoting market competition, fostering information pluralism, preventing the abuse of dominant positions, regulating communications networks and services, and safeguarding user rights. In this context, it is important to clarify that the CRC is responsible for defining certification and radiation standards applicable only to mobile phones operating on IMT bands, as well as to fixed and satellite phones.

Continuation: Your request with subject "Enquiry on Market Surveillance Requirements for Wireless Products_ Colombia" with number 2025825627.

Página 2 de 2

Given that your inquiry refers to requirements for the operation of wireless radio products, we find it relevant to note that the National Spectrum Agency (ANE) is the authority responsible for defining the applicable technical and operational conditions for such technologies. For this reason, your inquiry has been formally forwarded to the ANE, which is legally competent to address matters related to the use of license-exempt spectrum.

In the previous terms we have provided the requested information. In case you require any additional clarification, please feel free to address any further questions you may have.

Best regards,

MARIANA
